Adam Khemiri

Data Analyst | Power BI & SQL

Tulsa, OK | (301) 266-2350 | adamkhemiripro@gmail.com
Portfolio: https://adamkhemiri.github.io/

Professional Summary

Microsoft-certified Power BI Data Analyst with experience in sales analysis, BI reporting, and business application support. Uses SQL, Power Query, and DAX to build reporting models, validate data, and translate business requirements into actionable findings.

Technical Skills

Power BI: Power Query, DAX, semantic models, star schemas, Power BI Service, DAX Studio
SQL & Data Quality: PostgreSQL, SQL Server, joins, CTEs, window functions, data cleaning, report validation
Additional: Excel PivotTables, lookup formulas, Talend, requirements gathering, stakeholder communication, documentation

Relevant Experience

IT Support Technician – *Xceltek, Tulsa, OK* **Feb 2026–Oct 2026**

- Supported healthcare and business clients in a managed service provider (MSP) environment across Microsoft 365, Microsoft Entra ID, Active Directory, and business applications. Investigated access, mailbox, and application issues affecting users' day-to-day workflows.
- Troubleshot issues spanning user accounts, permissions, and application behavior, documenting validation steps and root-cause findings. Recorded business impact and resolutions to support clear follow-up and future troubleshooting.

IT Support Technician (Contract) – *BlaBlaCar, Paris ,France* **Jan 2024–Mar 2024**

- Prepared, reset, and validated Windows workstations for deployment, confirming device configuration, login access, and end-user handoff.
- Resolved first-line workstation and account issues, documented completed checks and outcomes, and escalated unresolved problems with concise technical context.

Data Analyst – *Daily Experience, Île-de-France ,France* **Jul 2023–Sep 2023**

- Analyzed five years of sales and transaction data in PostgreSQL to investigate declining sales and compare resale product performance.
- Translated the business owner's requirements into a Power BI report, cleaning CSV data with Power Query and building a star-schema model with DAX measures.
- Reconciled sales totals against source reports using Excel PivotTables and lookup formulas, identifying unmatched product IDs and missing values before reporting.
- Identified high-value unsold inventory and presented findings that informed purchasing priorities; collaborated with marketing to prioritize products for promotion.
- Used DAX Studio to analyze query performance and refine calculations to improve report responsiveness.

Business Intelligence Intern – *Your Team In Tunisia, Tunis, Tunisia* **Jan 2023–May 2023**

- Extracted, cleaned, and transformed business data using Talend, SQL, and Power Query to prepare reporting datasets.
- Wrote SQL queries using joins, filters, and aggregations to prepare KPI datasets for Power BI analysis.
- Built Power BI reports with model relationships, DAX measures, KPI visuals, slicers, and drill-through pages.
- Validated report outputs against source data by checking row counts, missing values, duplicate records, and mismatched joins.

Selected Data Projects

Sales Analysis 2025

- Built a Power Query workflow and star-schema model for September 2021–December 2022 sales data to compare revenue, discounts, costs, and profitability across products, segments, and countries.
- Created DAX profit and margin measures; identified approximately $615K in losses in the dataset's Enterprise segment and found that the United States led net sales while France led profit.

Maven Airline Loyalty Program Analysis 2025

- Analyzed loyalty membership and flight activity in Power BI, using enrollment and cancellation dates to calculate membership measures and DAX to evaluate customer value and redemption ratios.
- Identified summer peaks in flight activity and found that the Star loyalty tier led the analyzed tiers in total flights and members; documented DAX measures and published interactive report views.

Additional Experience

Fulfillment Associate – *Amazon, Tulsa, OK* **Oct 2025–Jan 2026**

- Performed stow and inventory tasks using handheld scanners and standardized workflows, maintaining accuracy and following quality and safety procedures.

Waiter – *Seoul Bistro,Tulsa, OK* **Mar 2025–Jul 2025**

- Provided table service, processed orders, and coordinated with the kitchen to maintain order accuracy and timely service.

Certifications & Training

Certifications & Exams

Power BI Data Analyst Associate (PL-300)
Certification earned

DP-600 Certification Exam
Scheduled for November 2026

Completed Training

Microsoft Power BI Data Analyst
Professional Certificate

Microsoft Fabric Analytics Engineer (DP-600)
Certificate of completion

Advanced DAX

SQL for Data Analysis

Education

Bachelor's Degree, Management Information Systems / Business Computing ITBS, Nabeul, Tunisia

Languages: English, French, Arabic

Work Authorization: Authorized to work in the U.S.
