Professional Summary

Microsoft-certified Power BI Data Analyst with experience analyzing sales data, building reporting models, and validating business metrics. Uses SQL, Power Query, DAX, and Excel to develop reports that support purchasing and marketing decisions.

Technical Skills

Power BI: Power Query, DAX, semantic models, star schemas, Power BI Service, DAX Studio
SQL & Data Preparation: PostgreSQL, SQL Server, joins, CTEs, window functions, data cleaning, Talend
Excel & Business Analysis: PivotTables, lookup formulas, data reconciliation, KPI reporting, requirements gathering, stakeholder communication, documentation

Analytics Experience

Data Analyst | Daily Experience
Île-de-France, France | Jul 2023–Sep 2023

- Analyzed five years of sales and transaction data in PostgreSQL to investigate declining sales and compare resale product performance.
- Translated the business owner's requirements into a Power BI report, cleaning CSV data with Power Query and building a star-schema model with DAX measures.
- Reconciled sales totals against source reports using Excel PivotTables and lookup formulas, identifying unmatched product IDs and missing values before reporting.
- Identified high-value unsold inventory and presented findings that informed purchasing priorities; collaborated with marketing to prioritize products for promotion.
- Used DAX Studio to analyze query performance and refine calculations to improve report responsiveness.

Business Intelligence Intern | Your Team In Tunisia
Tunis, Tunisia | Jan 2023–May 2023

- Extracted, cleaned, and transformed business data using Talend, SQL, and Power Query to prepare reporting datasets.
- Wrote SQL queries using joins, filters, and aggregations to prepare KPI datasets for Power BI analysis.
- Built Power BI reports with model relationships, DAX measures, KPI visuals, slicers, and drill-through pages.
- Validated report outputs against source data by checking row counts, missing values, duplicate records, and mismatched joins.

Additional IT Experience

IT Support Technician | Xceltek
Tulsa, OK | Feb 2026–Oct 2026

- Supported healthcare and business clients across Microsoft 365, Microsoft Entra ID, Active Directory, and business applications.
- Documented troubleshooting, validation steps, and resolutions to client issues.

IT Support Technician | BlaBlaCar
Paris, France | Jan 2024–Mar 2024

- Prepared and validated Windows workstations; resolved first-line workstation and account issues and documented completed checks.

Selected Analytics Projects

Sales & Profitability Analysis | 2025 | View report

- Built a Power BI report from course-supplied Excel data, using Power Query, a star-schema model, DAX measures, and drill-through views to compare sales and profitability across products, segments, and countries.
- Identified approximately $615K in Enterprise losses despite $19.61M in net sales; found that France earned $785K more profit than the United States despite lower sales, highlighting areas for pricing, cost, and product-mix investigation.

Maven Airline Loyalty Program Analysis | 2025 | View report

- Combined customer flight activity and loyalty history in Power BI, using DAX measures, year and enrollment-type filters, and drill-through views to explore activity across time, location, and customer groups.
- Calculated 27.9% growth in flights from 2017 to 2018 and 44.2% growth in July activity; documented findings, validation checks, and a discrepancy between loyalty-tier totals and the headline flight count.

Certifications & Professional Development

Microsoft Certified: Power BI Data Analyst Associate (PL-300)

Microsoft Fabric Analytics Engineer Associate – DP-600 Exam
Scheduled for November 2026

Completed Training: Microsoft Power BI Data Analyst; Microsoft Fabric (DP-600); Advanced DAX; SQL for Data Analysis.

Additional Experience

Fulfillment Associate | Amazon
Tulsa, OK | Oct 2025–Jan 2026

Waiter | Seoul Bistro
Tulsa, OK | Mar 2025–Jul 2025

EZ Parking | Capitol Heights, MD
Project Manager | Jul 2024–Nov 2024
Property Maintenance & Parking Attendant | May 2024–Jul 2024

- Promoted to Project Manager in July 2024; coordinated property improvements and daily parking operations, including vehicle placement, payment collection, and receipts.
