Professional Summary

Power BI and SQL-focused Management Information Systems (MIS) graduate with PL-300 certification and hands-on experience building KPI dashboards, data models, DAX measures, Power Query transformations, SQL reporting queries, and source-to-report validation checks. Current healthcare MSP role adds business systems troubleshooting, access validation, stakeholder communication, documentation, and root-cause analysis.

Technical Skills

Power BI & Reporting: Power BI Desktop, Power BI Service, workspaces, semantic models, DAX, Power Query, KPI dashboards, data modeling, star schema, slicers, drill-through, bookmarks, report QA

SQL & Data Quality: SQL Server, SSMS, joins, aggregations, CASE logic, NULL handling, date logic, text cleaning, data validation, row-count checks, duplicate/missing-value checks, source-to-report reconciliation

Business Analysis & Systems: Excel, Microsoft 365, SharePoint, Entra ID/Azure AD, Active Directory, requirements gathering, stakeholder communication, workflow analysis, root-cause analysis, process documentation

Professional Experience

IT Support Technician – Xceltek, Tulsa, OK

Feb 2026–Present

Business systems, healthcare applications, access control, and operational support

- Support healthcare and MSP clients across Microsoft 365, Entra ID/Azure AD, Active Directory, SharePoint, remote access, VoIP, and healthcare business applications, managing approximately 50 tickets weekly.
- Investigate application, access, mailbox, workstation, and workflow issues; document symptoms, validation steps, root-cause findings, business impact, and resolutions.
- Validate account changes, shared mailboxes, distribution groups, application permissions, endpoint readiness, and remote connectivity to reduce access issues and support operational continuity.

Business Intelligence / Data Analyst Intern – YTT Tunis, Tunis, Tunisia

Apr 2023–Dec 2023

- Extracted, cleaned, and transformed business data using Talend, SQL, and Power Query to support reporting and dashboard development.
- Wrote SQL queries with joins, filters, grouped summaries, and aggregate logic to prepare KPI datasets for Power BI analysis.
- Built Power BI reports with Power Query transformations, model relationships, DAX measures, KPI visuals, slicers, drill-through pages, and navigation.
- Validated report outputs against source data by checking row counts, missing values, duplicate records, and mismatched joins during dashboard preparation.

Projects

Sales Analysis – Power BI, DAX, Power Query, Star Schema

2025

- Modeled sales data into a star schema, built Power Query transformations, and created reusable DAX measures for sales, discounts, COGS, profit, margin, units, and time trends across a multi-table dataset.
- Designed KPI pages by product, segment, country, and period; reconciled dashboard totals against source data using row-count and aggregate checks.

Maven Airline Loyalty Program Analysis – Power BI, DAX, Customer Analytics

2025

- Analyzed loyalty activity, enrollment trends, flight behavior, points issued/redeemed, customer value, and location patterns to identify performance trends across member segments.
- Built KPI cards, detail views, reusable DAX measures, app-style navigation, and interactive filters to compare loyalty performance across customer segments and locations.

SQL Server Reporting Query Practice – SQL Server, SSMS, T-SQL

2026

- Completed SQL reporting exercises using joins, filters, aggregations, CASE logic, NULL handling, text/date logic, and grouped summaries.

Certifications

• **Microsoft Certified: Power BI Data Analyst Associate (PL-300)** – Oct 2025

• **Advanced DAX** – Maven Analytics, Jul 2025

• **SQL Server / SQL for Data Analysis** – Udemy, 2026

Education

Bachelor's Degree, Management Information Systems / Business Computing – ITBS, Nabeul, Tunisia

Languages: English, French, Arabic

Work Authorization: Authorized to work in the U.S.
