

Adam Khemiri

IT Support Technician | MSP Support | Microsoft 365 & Desktop Support

Tulsa, OK | adamkhemiripro@gmail.com

linkedin.com/in/adam-khemiri | github.com/AdamKhemiri

Professional Summary

IT Support Technician with current MSP experience managing a 40+ ticket/week queue across Windows 10/11, Microsoft 365, account/access administration, and end-user desktop support. Hands-on with onboarding/offboarding, password resets, licensing, MFA, shared mailboxes, remote troubleshooting, ticket documentation, and escalation handoffs with clear technical context.

Technical Skills

Operating Systems: Windows 10/11

Microsoft 365 / Office 365: Outlook, Teams, Office apps, licensing, shared mailboxes, password resets, block sign-in, session revocation

Identity & Access: Active Directory, Microsoft Entra ID, user provisioning/deprovisioning, group membership, MFA, permissions

Remote Support / MSP Tools: ConnectWise workflows, ScreenConnect, ConnectWise Automate

Service Desk / Documentation: ticket queue management, triage, remote support, ticket documentation, escalation handoff, IT Glue

Endpoint / Security Support: agent health checks, antivirus validation, SentinelOne alert review, endpoint status checks

Hardware / Peripherals: printers, scanners, monitors/displays, audio devices, USB devices, workstation setup

Networking Basics: TCP/IP, DNS, DHCP, Wi-Fi, VPN

Professional Experience

IT Support Technician

Feb 2026–Present

Xceltek, Tulsa, OK

- Manage a ticket queue averaging 40+ tickets per week in a fast-paced MSP environment, supporting client users across Windows 10/11, Microsoft 365, Office applications, account/access issues, and general desktop support.
- Handle user lifecycle and access requests including onboarding/offboarding, account setup and deactivation, password resets, license assignment, permission updates, MFA support, and shared mailbox administration.
- Troubleshoot remote end-user issues using ScreenConnect and ConnectWise tools, document diagnostics, actions taken, and resolutions clearly in tickets, and escalate higher-complexity issues with complete handoff notes and technical context.
- Resolve workstation, peripheral, and application issues involving printers, scanners, monitors, display settings, audio devices, Office/Outlook issues, and general endpoint usability problems.
- Perform initial endpoint and security triage by validating agent health, reviewing antivirus and SentinelOne status, coordinating with vendors when needed, and tracking incidents to resolution.

IT Support Technician (Contract)

Jan 2024–May 2024

BlaBlaCar, France / Tunisia

- Prepared, reset, and validated Windows PCs for end-user deployment, completed basic setup checks, verified logins, and documented device readiness for handoff.
- Supported first-line workstation and access issues, communicated clearly with end users, and escalated unresolved problems with concise notes and next steps.

Technical Projects

IT Support Runbooks & Troubleshooting Documentation | GitHub

2025–Present

- Built troubleshooting examples, runbooks, and handoff documentation covering Wi-Fi issues, printer support, network connectivity, and Microsoft Entra ID lab tasks to demonstrate methodical troubleshooting, clear written communication, and documentation discipline.

Education

Bachelor of Science in Business Computing

ITBS, Nabeul, Tunisia

Certifications

Microsoft Certified: Power BI Data Analyst Associate (PL-300)
