IT & Data Support Specialist

Summary

IT & Data Support Specialist blending **desktop support** and **data reporting** skills. Hands-on experience supporting end users with **Windows workstation readiness** (setup, resets, login/access validation, peripherals) plus strong **Excel + SQL foundations** for data cleanup, validation, and ad hoc reporting. Comfortable working independently, documenting steps, and partnering with leadership to improve processes as the organization grows.

Core Skills

Desktop Support / End-User IT: Windows 10/11 setup; troubleshooting login/account issues; updates; drivers (Device Manager); hardware/peripherals; clear documentation and escalation.

User Account Management: Active Directory fundamentals (home lab): creating users/groups, group membership, password reset, account unlock; basic OU organization.

Data Support & Reporting: SQL foundations (SELECT/JOIN/WHERE); Excel (Power Query, pivots); data cleanup, organization, validation; ad hoc reporting for operations and leadership.

Operating Systems: Windows 10/11; basic Linux CLI; macOS familiarity; BIOS/UEFI navigation for troubleshooting/reset support.

Tools: SQL Server; Power BI; Power Query (M); Microsoft 365; Git/GitHub; SOPs/runbooks and user-friendly documentation.

Professional Experience

IT & Data Support (Contract)

Jan 2024–Jun 2024

BlaBlaCar — France/Tunisia + Remote (FR/TN)

- Provided hands-on end-user support during a temporary on-site period (**Jan–Apr 2024**): **reset and prepared Windows PCs**, validated successful boot/user access, and troubleshooted basic login/peripheral issues.
- Performed basic setup checks and escalated issues with clear notes; accessed BIOS/UEFI when needed to support reset/troubleshooting steps.
- Integrated Odoo ERP data into Power BI using **Power Query (M)**; designed a star schema for consistent reporting.
- Built executive dashboards with drill-through, tooltips, and RLS; reduced manual reporting time by **50%**.

Business Intelligence Analyst Intern

Apr 2023–Dec 2023

YTT Tunis — Tunis, Tunisia

- Wrote SQL (SELECT/JOIN/WHERE) to pull production and inventory data; **validated joins and row counts** to ensure accuracy.
- Supported internal users with questions about Excel reports and shared files; served as first contact before escalation.

Store Associate — Reporting & Operations Support

Jul 2022–Mar 2023

ACTION Retail — France

- Consolidated store Excel files using **Power Query** to standardize reporting inputs and reduce rework.
- Used handheld scanners and in-store systems to process inventory and sales; resolved minor device/scanning issues following procedures.

Fulfillment Associate

2024–Present

Amazon Fulfillment Center — Tulsa, OK

- Work in a high-volume environment using handheld scanners and internal software systems; consistently meet safety, quality, and productivity targets.
- Follow standard procedures and communicate issues clearly in a fast-paced, metrics-driven setting.

Home Lab (Hands-On)

Active Directory Micro-Lab

- Practiced common support tasks: creating users/groups, managing group membership, password resets, and account unlocks.
- Documented steps and captured screenshots as proof of configuration and tasks completed.

Education

Bachelor of Science (B.S.) in Business Computing

(France/Tunisia)

Certifications

- **Microsoft Certified: PL-300 — Power BI Data Analyst** (Active)
- **IBM / Coursera — Practice Exams for CompTIA A+ Certification: Core 1 & Core 2** (2024)

Additional

Languages: English, French, Arabic

Work Authorization: Authorized to work in the United States

Strengths: self-starter; clear documentation; end-user communication; adaptable in fast-changing environments.
